"These are some of the best products our guys have installed."

~ Contractor on cement project

URC | 4U SERVICE

EST. 1973

ISO 9001 Quality

- ISO 9001: 2008 Certified
- With traceable documentation, we test every batch to maximize quality and consistency.

Immediate Response

- Immediate order confirmation and one (1) day emergency response is routine.
- Special capabilities for packaging and private labeling.

U.S. Owned, Globally Trusted

- U.S. privately owned with close ties to customers and suppliers.
- Global network of licensees, suppliers and distributors.

Product Customization

- Compositions are "customized" for contractors, distributors and end users.

PRODUCT CUSTOMIZATION

"Second Generation" Low Cement Gun Mixes

Full line of new low cement gun mixes that exhibit a wet feel, low rebounds, low dusting and great properties.

"The fused SiO₂ gun mix is better and more consistent than the competition."

~ Contractor

Abrasion Resistant Problem Solvers

The UNI-BRADE line of products, including UNI-BRADE AR-85, install great while showing very low C704 numbers.

"UNI-BRADE AR-85 does a great job in tough CFB areas."

~ Contractor

Customized Compositions Specifically for Precast

With applications that include ladle inserts, EAF delta and tundish furniture, URC has what a precaster needs... quality, selection and consistency.

"Of all our suppliers, the United products are the most consistent performers."

~ Supervisor, Precast Facility

User Friendly, Full Service Plastic Offerings

Complete line of Al₂O₃ and SiC plastics including customized formulations for foundry, cement, waste to energy, power and steel.

"BLU J is a workhorse for our guys."

~ Contractor

State-of-the-Art Shotcretes and Pumpables

Full line of shotcretes and pumpables that mix, pump and install consistently with great properties.

"Installing over 1.5M pounds of UNI-SHOT AZ-SC without one incident is quite impressive."

~ End User Executive
